# Larry Louie

*Will Present At Our July Meeting!*

*We will be meeting in the MAC Auditorium, not Room 30.  
Don't miss Larry's presentation!*

Larry Louie is an international award winning documentary photographer. Larry Louie leads a dual career. In his optometry clinic, he is Dr. Larry Louie, working to enhance the vision of people from all walks of life in the urban core of a North American city. On his travels, he is a humanitarian documentary photographer, exploring the lives of remote indigenous people, and documenting social issues around the world. As an optometrist, Larry adjusts people's visual perception. As a photographer, he seeks to adjust people's view of the world. Either way, he is interested in things that exist outside the regular field of vision.

It takes vision to be a good photographer, to imagine how the world around you will look in a photograph. But it takes another kind of vision to see how you can use what skills and experience you have to help other people.
